# Midea PT --- 12,000 btu

<b>Packing(W*D*H)</b>	674*356*875mm
<b>Product Size(W*D*H)</b>	496*425*825mm
<b>Loading quantity_40'H</b>	310
<b>Feature</b>	<b>Cooling Capacity 14,000BTU(ASHRAE) 12,000BTU(SACC)</b> Innovative Hose-in-hose Design Inverter Technology Ultra-quiet Operation Smart Control

## Hose-in-Hose Design More than 2X Stronger Cooling

### Midea Duo

Dual Hose  
Shut Heat Out, Lock Cool In

### Traditional Portable AC

Single Hose  
Unbalanced Airflow

## INNOVATIVE DUO HOSE DESIGN

Midea's industry-first hose-in-hose design enables the unit to intake and exhaust air outdoors. The hose-in-hose portable air conditioner can form balanced air circulation indoors, effectively preventing hot air from seeping into the room through gaps around doors and windows.

## More than 2x Faster Cooling

- **MORE THAN 2X FASTER AND STRONGER COOLING**

Empowered by the Duo hose design and an optimized air duct system, Midea Duo can lock and maximize cooling indoors. Now you can enjoy a 2X faster and stronger whole-room cooling experience like never before

Engineered with **Inverter Technology**,  
cools more with **40% less electricity**.

**40%**  
energy-saving

• **INVERTER TECHNOLOGY** - Engineered with the variable-speed inverter technology, Midea Duo Inverter portable air conditioner cools more with considerably less electricity than traditional portable units. It saves more than 40% energy compared to U.S. federal standard.

# 42dB(A) Extreme-Quiet Operation

•**42dB ULTRA-QUIET OPERATION-** The sound level of Midea Duo is as low as 42dB when cooling. That is almost as quiet as a library.

# Smart Control

Control from anywhere with app or voice.

- **SMART WI-FI, WORKS WITH ALEXA/GOOGLE ASSISTANT** - Wi-Fi module enables you to control from anywhere with the Midea Air smartphone app or by voice assistant with the Google Assistant and Alexa.
