

# Condensate Pump

**NAHVAC**

North American HVAC

Tank Pump CP-24TL115/CP-24TL230

## Application

Excess condensate removal for Eco-Air HVAC

## Purpose

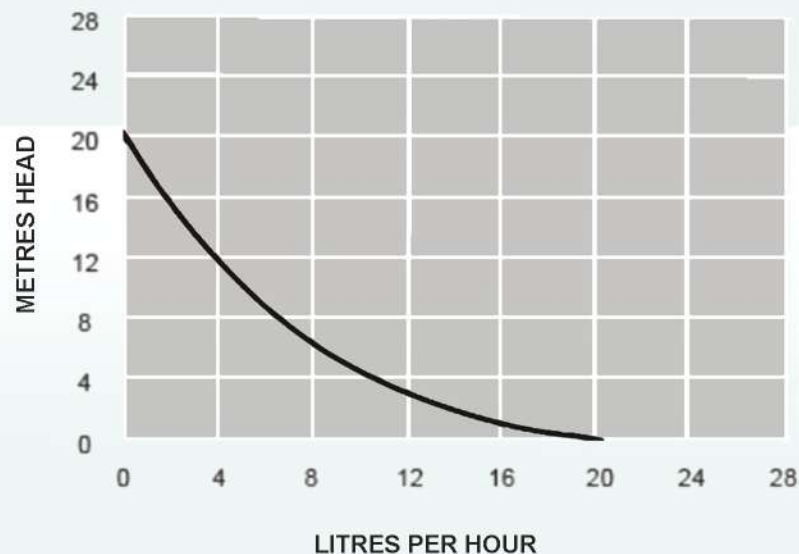

This product is designed to remove condensate or excess water from Eco-Air HVAC equipment automatically.

## Advantages

The Eco-Air Tank Pump product is a tested, quality ensured product that runs for far longer than most pumps on the market. These Eco-Air Tank Pumps are also made from the highest quality workmanship and material, engineered to be a reliable product. Additionally, the pumps are compatible and designed to work proficiently and safely with all Eco-Air Products.

<b>Max Condensate Temperature:</b>	70° C	<b>Rated Voltage:</b>	115V/230V AC
<b>Water Flowrate at 1.5m(L/H):</b>	480/520	<b>Frequency</b>	50/60
<b>Max Flowrate</b>	40L/H	<b>Tank Capacity</b>	260 ml
<b>Discharge Head:</b>	24'/7.3M	<b>Rated:</b>	Continuous
<b>Water Storage</b>	230 ML	<b>Power</b>	125/110
<b>Current</b>	0.45 - 2.2 I	<b>CE and ETL :</b>	II Appliance
<b>Safety Switch:</b>	3A Normally Closed	<b>Sound Level</b>	<19 db(A) @ 1 m
